

Missions Statement

Wartling Place is committed to caring for the environment and working to maximize guests comfort during their stay by:

- Promoting our environmental policy for our guests to read and understand.
- Committed to saving water by installing hippo bags in all w.c's, thus reducing water used on each flush.
- Use lights bulbs suitable for low energy and voltage, and long-life use.
- Use A rated or efficient appliances throughout the house.
- Compost waste whenever possible and re-cycle using facilities offered nearby.
- Promote a towel usage policy to encourage guests to re-use towels, by only leaving those left in the bath tub or on the floor to be changed.
- Have a monitoring system to maintain low levels of energy consumption and politely request guests turn off lights and appliances when they out for the evening.
- Monitor heating levels and energy use in the quieter months.
- Minimize vehicle use by combining trips for other uses and use local suppliers who can offer home deliveries wherever possible.
